ABOUT ME

I am a MERN Stack Developer with strong skills in building responsive, user-friendly, and scalable web applications. I enjoy transforming ideas into functional digital products using modern technologies, with a focus on clean code, performance, and delivering smooth user experiences.

TECHNICAL SKILLS

- **Languages & Core:** HTML5, CSS3, JavaScript (ES6+), [React.js](#), TypeScript
- **Backend & Frameworks:** MERN Stack Fundamentals, Node.js, Express.js
- **Styling & UI:** Tailwind CSS, Responsive Design, UI/UX Principles
- **Tools & APIs:** Git/GitHub, OpenAI API, JWT Authentication, Axios, MongoDB

PROJECTS

Clothing Website (E-commerce Platform)

MERN Stack, Tailwind CSS, JWT, Axios

- Developed a complete e-commerce platform featuring a responsive UI and secure login/registration system.
- Implemented product listings, a dynamic shopping cart, and administrative features.
- Focused on building reusable components and ensuring a high-performance user experience.

Event Management System

React.js, Tailwind CSS

- Built a web-based platform allowing users to create, manage, and register for various events.
- Designed dynamic components for event scheduling and user-friendly management workflows.

Chatbot Using OpenAI

React.js, OpenAI API

- Engineered an AI-powered chatbot that interacts with users via the OpenAI API.
- Implemented dynamic prompt handling and message state management with a clean frontend interface.

EXPERIENCE

2 Year • Gained hands-on experience in frontend and backend integration, focusing on building functional web prototypes.
